10.2.2 FORMATION LAP

Drivers should leave the Pre-Grid when directed by the Pre-Grid Marshal.

The field must stick together in 2 distinct lanes as per the positions on the Pre-Grid. It is the responsibility of the driver in Pole Position to set the pace which should be steady and controlled. The driver in 2nd position should stay alongside during this lap.

Erratic weaving (zigzags) is prohibited during formation lap. Offending drivers will be penalized.

10.2.3 RACE START

All starts will be a rolling start. Race will start (drivers can overtake) when starting signal is given (all lights are off or Green flag is waved).

At the end of the Formation Lap, Drivers will proceed forward at a reduced and constant speed towards the Starting Line, lined up in two lines of karts, and each line shall remain within the lanes marked on the track. Race leader will set the pace and will only be allowed to accelerate when the starting signal is given.

A Driver crossing the lanes is liable to be sanctioned by the Stewards, on the basis of a time penalty of 3 seconds for partly crossing the lanes and of 10 seconds for completely getting out of the corridor.

A Driver failing to respect the required speed or anticipating acceleration during the approach to the start Line is liable to be sanctioned by the Stewards with a maximum penalty of 10 seconds. When the karts approach, the red lights will be on.

Karts must maintain their position until the start signal is given.

Flashing orange lights will be activated to indicate a “start aborted”, meaning that an extra Formation Lap will take place. If the reason for a “start aborted” is due to a particular offender, Officials may decide to impose a penalty at their discretion.

In the case of start light failure, the Green flag will be used. The flag will be held out stationary on the approach and raised to indicate a start. If the flag is not raised, the race has not started.

10.2.4 FALSE START

The clerk of the course can decide to delay the start for multiple reasons such as karts not being at their starting position or in close proximity before the start or the race signal is given.

In this case, red lights will stay on and orange flashing lights will be switched on. Should the lights fail, a yellow flag will be shown on the start and finish line. Drivers should continue to take another formation lap and follow start procedure.

10.2.5 JUMP START

A jump start will be deemed to have occurred if a driver accelerates and/or overtakes before the red lights are off.

A penalty will be imposed at the discretion of the Senior Officials according to the individual circumstances.

Should a race be stopped by the display of red flags, the following procedures shall apply:

1. If less than 50% of race distance has been completed by the leader, the race will either be re-run in its entirety or abandoned in which case the result becomes null and void.
2. If 50% race distance or more has been completed by the leader, the race will be deemed to have ended. The race result will be based on the order of crossing the finish line at one lap less than at the time of the first showing of the Red Flag. Only vehicles which are under their own power at the showing of the Red Flag will be classified.

10.4 RACE FINISHING PROCEDURES

After receiving the chequered flag all karts must proceed directly to the pit lane.
